About US

Camp WhatAboutYou is a fun and educational summer day camp serving school aged persons with disabilities.

Pairing professional and caring direct care staff with interactive technologies, Camp WhatAboutYou custom builds a curriculum for each Camper based on interests and choices.

All campers will have options in:

- Arts & Crafts
- Computer Activities
- Sensory Exploration
- Community Involvement
- Home & Garden Skills
- Working Farm Access
- On & Off-site Activities

Our Program

Campers will be teamed up in multi-aged groups in order to promote developmentally appropriate fun through sports, games, and social skills. Individual progress will be addressed as campers are encouraged to work together to solve problems using group dynamics. Campers will interact with staff as they make friends across age groups. Each camper will feel more confident, comfortable, and adept in problem solving by working together.
